

Omega 7™ ESD

MAGNIFIER

U25171

Fact Sheet

Our Omega 7 ESD Magnifier uses carbon-fibre and special conductive coatings to guarantee 100% ESD compliance for the lifetime of the magnifier. A large 7" 3-diopter, optical quality glass lens and powerful illumination with 8,000 lux at 6" and daylight LEDs with a CRI of 95+. Offering 3 color temperatures and dual-mode dimming (4-step or continuous), it provides optimal comfort and control while you work.

4 independent lighting segments allow you to create shadows and highlight specific details for enhanced contrast and clarity. An automatic 9-hour shut-off feature also helps save energy when the lamp is not in use.

FEATURES

- 100% ESD-safe illuminated magnifier that is independently certified
- 8,000 lux at 6"
- 95+ CRI daylight LEDs
- 3 color temperatures – Daylight (5,500K), Cool Light (4,000K), and Warm Light (2,700K)
- 4 brightness levels and continuous dimming
- 7" optical quality glass lens, 3 diopter (1.75x magnification)
- Quick-change lens for easy cleaning
- 4 independent lighting segments to create shadows and enhance particular details
- Durable carbon fibre, 3-pivot head joint with ergonomic wing nut
- Magnetic locking lens cover included – stores conveniently on the arm when not in use
- Energy-saving automatic shut-off after 9 hours
- Suitable for use in EPA (Electrostatic Protected Areas) to IEC 61340-5-1 and ANSI/ESD 20:20

SPECIFICATIONS

Product information

Weight	9lb
Colour	Black
Cable length	79"
Lens Size	7"
Magnification	3 Diopter (1.75X)
Max. clamp opening	3.3"

Light output

Light source	LED
Lux at 6"	8,000
Color temperature	5,500K / 4,000K / 2,700K
CRI	95+
Dimmer	4 Step & Continuous
Energy consumption	12.5W

Packaging information

Height	25"
Width	21"
Depth	4"
Packed weight	11.7lb
Products per master carton	2
